UCSB INTERCOLLEGIATE ATHLETICS MISSION

- Intercollegiate Athletics is intended to foster a sense of community among faculty, staff, and students on campus and to help support the campus efforts to positively engage friends, alumni, and supporters.

- UCSB and the ICA put the highest priority on integration of academic and athletic success. Intercollegiate participation provides a curriculum that complements typical academic progression.

- UCSB Expects its Intercollegiate Athletics teams to strive for an excellence commensurate with the excellence achieved by its strongest academic departments. Specifically, UCSB teams should be contenders for conference and national championships.

- UCSB Expects its intercollegiate Athletics Program to provide equivalent competitive opportunities for men and women in a variety of sports. The Intercollegiate Athletics Program at UCSB is bound by policies and procedures of the NCAA and rules of the conferences and associations of which it is a member.
Meredith Field at Harder Stadium

Harder Stadium is 52 years old and in constant need of maintenance and renovation in order to provide a safe, quality venue for University events and Athletic contests. As the host for the 2018 and 2020 NCAA College Cup Men’s Soccer Championships this is particularly important and will showcase our community, university and department.
MEREDITH FIELD AT HARDER STADIUM

Planned updates

- Additional chairback seating
- Repair existing seating
- Paint stadium exterior
- Repair/replace exterior fencing
- Ticket booth relocation
- Improve sidewalks
- Repave Stadium Road
- Upgrade video board
- Additional locker room space
- Permanent speaker system
MEREDITH FIELD AT HARDER STADIUM

Completed projects
- Renovated men’s and women’s soccer locker rooms
- New goals
- Reconditioned field
- College Cup Room (team meeting/media room)
A quality, limited use natural grass field is imperative to provide a safe practice venue for men’s and women’s soccer.

- **Planned**
  - Storage, equipment and additional field amenities
- **Completed**
  - New natural grass practice field for men’s and women’s soccer completed early 2018
GAUCHO PARK MASTER PLAN

CAESAR UYESAKA STADIUM, CAMPUS DIAMOND AND RECREATION FIELD

ICA Capital Projects
The current facilities have limited seating, inadequate fan support facilities, no restrooms or concessions, no competition lighting and cannot accommodate NCAA postseason games. The grass rec field is in terrible condition with improper irrigation, insufficient drainage and is undersized. It has been 25 years since the last comprehensive upgrade to these facilities.
Planned projects for Caesar Uyesaka Stadium, Campus Diamond, Rec Field

- Renovated baseball stadium and new, relocated softball stadium
  - Lights, stadium seating, field, concessions, restrooms, equipment storage, softball clubhouse and batting cage
- New, relocated natural grass rec field
- Estimated Project Cost $30m
GAUCHO PARK MASTER PLAN
CAESAR UYESAKA STADIUM, CAMPUS DIAMOND AND RECREATION FIELD

Completed projects

- Reconditioned fields
- Banner signage
- Outfield fencing
- Backstop netting
- Batting cage lights
- Batting cage netting
- Scoreboard painting

ICA Capital Projects
A much needed upgrade to the competition and general student and community use areas of 44 year-old Pauley Track will be completed early this year. However, this initial phase does not include many of the amenities necessary to accommodate spectators and host a quality intercollegiate track meet.
Phase 1 of renovation to be completed early 2018 includes lighting, track surface and field competition areas.

- Completed in partnership with Recreation
- $2.9m funded by student fees
Early discussions of Phase 2 to include spectator seating, scoreboard, grand entry plaza/gate, landscaping, exterior fencing, team building to include permanent storage and team amenities such as lockers, bathrooms and meeting space.

- Estimated Project Cost $3m
Replacing 75 year-old Campus Pool is necessary to provide a quality practice and competition venue for swimming and water polo programs in addition to use as a resource for campus and community user groups. The aging facility does not meet current competition regulations and does not provide adequate infrastructure for team support and event management.

- 65-meter competition and practice facility for campus, community and aquatics programs, including spectator seating and basic fan amenities
- Estimated Project Cost $15m
TENNIS FACILITY
Currently the men’s and women’s tennis teams have no true home courts as none of the existing tennis courts on campus provide a quality competition venue. The Rec Courts, while adequate, do not have sufficient and appropriately located spectator seating, fan amenities, team support facilities or scoreboards.

- Study completed by Blackbird Architects to confirm feasibility
- Site identified and confirmed as feasible between track, rec fields and proposed new Aquatics Center
- Estimated Project Cost $6.5m
TENNIS FACILITY (Alternate Plan)
TENNIS FACILITY (Alternate Plan)

- Rebuilding six of the Rob Gym Courts. (remaining two would be resurfaced one could be repurposed for outdoor basketball)
- Rebuild will not displace any other facilities with the possible exception of one outdoor basketball court which could be relocated to court 8
- Provides complete locker room facilities for both men and women’s tennis programs
- Seating for 600
- Public Restrooms that could also support track events
- Allows space for future new pool site
- Estimated cost $3m
Now approaching its 40th year serving the UCSB campus, the Thunderdome continues to provide a practice and competition venue for men’s and women’s basketball and women’s volleyball in addition to numerous other campus events and activities. While some improvements have been made, additional upgrades are required as the facility ages. Additional projects will modernize the venue to ensure it remains a quality practice, competition and entertainment venue for the benefit of students, athletes, fans and the entire campus community.
THUNDERDOME

Planned

- Video board - $600,000
- Chairback seating - $500k - $1m
- Renovated locker room for men’s basketball
Completed

- Center scoreboard
- New floor (in partnership with ECEN)
- Renovated locker room for women’s volleyball
- Renovated media room
- Founders Room furniture upgrade
- Total improvements $1.5m
With its recent upgrades, Rob Gym serves as a quality practice and competition venue for men’s volleyball in addition to its continued use by Club Sports, faculty, staff, community and the general student population.

- Planned
  - Permanent public address system
  - Renovated locker rooms

- Completed
  - Refinished floor, paint, signage, lighting and roof repair (completed by Recreation)
The ICA Building is nearly 15 years old and is a great asset to the Department. However, there is a need to upgrade and renovate several areas to accommodate new programs and services.

- **Planned**
  - Weight room renovation Phase 2 - $150,000
  - New flooring and additional equipment to serve all varsity sports
  - HVAC – TBD

- **Completed projects**
  - Weight room renovation Phase 1
    - New racks, platforms, plates, dumbbells, kettle bells, medicine balls and tendo units
  - Construction of two academic advisor offices
  - Addition of WIFI coverage throughout the ICA Building
  - Advancement Suite Renovation
    - Construction of two additional offices within suite (funded by Central Development)
  - Total improvements $225,000
